Note.

× Kodigehalli.

In company with the Deputy Commissioner (Mr.Sparkes) and the Amildar, I inspected this village× on the afoor-noon of the 22nd instant. I am soory that I was not able to make the inspection earlier owing to other and more pressing engagements.

2. This is ~~the filthiest and the~~ a most overcrowded village ~~I have ever seen~~ and in a highly unsanitary condition. The extent of the Gamtan is only 11 acres and 1 gunta, while the number of houses in it is as many as 262. More families than one live in many of these houses. The population is at present over a thousand. There is a great demand for new sites.

3. There are no roads or streets worth the name. Blind lanes are all that exist. I had therefore to move backwards and forwards several times to enable me to form an accurate idea of real requirements.

4. It is no wonder that during the past three years there ~~has~~ been a regular recrudescence of plague in the village with the result that no less than 200 people (between 1/5 and 1/6th of the entire population) have unfortunately succumbed to it. Fortunately plague has not as yet appeared here this year, and I quite understand the anxiety of the local authorities and of the majority of the villagers, that something should be done soon to improve the sanitary

sanitary condition of the village and to remove the existing congestion. There are a few people who seem callous and even obstructive and among them is an influential ryot who is a fatalist that lost no less than 7 members of his family during the outbreaks of 1900, 1901 and 1902.

5. The houses are so closepacked that to enable light and air being let in, the demolition of many of them is absolutely necessary: 78 houses are proposed to be removed and 4 roads to be opened. This is a good proposal.

6. For the people who will be thus rendered houseless as well as for those who now own no houses, an extension of the village is urgently called for. Out of Survey Nos.117 and 175 the Deputy Commissioner recommends that 10 acres and 5 guntas be acquired and divided into 120 building sites. The site selected is high and dry and is quite close to the village. A better selection could not be made.

7. The cost of the necessary improvements is Rs.3,000/- as shewn below:-

Rs.1012 - 8- 0.	for acquisition of portions of lands Nos. 117 & 175.
Rs.1662 - 2 -0	for acquisition of 78 houses.
Rs. 325 - 6 -0.	for making 4 roads in the village.
Rs.3,000- 0 -0.	

8. No account need be taken of the cost of forming roads and making drains in the extension as that cost is likely

likely to be met from the sale proceeds of the sites.

9. It is clear that the village requires improving and extending at once. And now comes the question of funds. In ordinary times and under ordinary circumstances the cost would be a legitimate charge on District Funds. But this is an exceptional case. A single village has to be dealt with and so large an expenditure as Rs.3,000/- is involved. The Board's finances are as follows:-

> According to the Budget for 1903-1904 the estimated closing balance is Rs.15,883 which is less than the prescribed minimum by Rs.2,607/-. From this has to be deducted the estimated cost of incomplete works Viz Rs.8,300/-

What would be left is thus only Rs. Rs.7,583/- for the whole District and this would be below the prescribed minimum by Rs,9,970/- It is impossible therefore for the District Fund Board to spend so much as Rs.3,000/- on the improvement of this single village, however important and urgent such improvement might be. The Board therefore ask that the work be carried out from Local Funds General.

10. I am clearly of opinion that all things considered, the Funds last mentioned could not be used for a better purpose. I beg accordingly to strongly recommend that the small grant asked for be sanctioned. If left to the D.F. Board,

Submitted to His Highness.

Sir,

I have the honor to state that on the morning of the 6th December last I inspected the Kodegehalli village in the Bangalore Taluk. It is very much congested and has thus become very unhealthy. Plague has been visiting it every yr. It requires thorough

and

and speedy improvement by way of extension and opening new roads. There is an excellent site to the north of the village and the villagers have agreed to remove their houses to this locality if the land be given them. It is part of Survey Nos 117 and 175 with 10 acres - 5 guntas in extent and the cost of acquisition is estimated roughly to be Rs 1012-8-0. It is proposed to mark out 120 building sites.

2. At present the village consists of 262 houses of which 78 are proposed to be acquired and dismantled for the purpose of making new roads, &c. The cost of the acquisition of these 78 houses as also that of some more vacant sites adjoining them, aggregate Rs 1662-2-0, while

the

The formation of the road might amount to about Rs 3000/-

2 This matter was discussed at the District Fund Board meeting held on the 11th Instant. Considering the absolute necessity of improving the sanitation of the village the Board passed a resolution to the effect that Government be moved to sanction a sum of Rs 3000/- from Local Funds General for this purpose. An extract thereof is herein enclosed. For the last two years no allotment has been made to this District under Local Funds General under these circumstances. I beg that a grant of Rs 3000/- from the Local Fund

Genl. General may be sanctioned for this purpose, early.

The record on the Subject is enclosed with a ferist.
